

Another year starts and with it, new hopes and aspirations – a faint desire that sprouts in every human heart that yearns of happiness, prosperity and goodness to come.

The year gone by might have shown grim state of affairs around the world with stories of bloodshed, tragedy and human failures never ceasing to seize the headlines

But the excitement of a NEW YEAR, brings about an anticipation of a better future. This is one real moment that will touch the fabric of human emotions that entails not only hope, but a reason to keep smiling and living life as it is.

New Year is the time to remember all the memories we share, all the fun things we did together, all the secrets we poured out; for distance is the last thing that can create a rift in our friendship.

Wishing you a very happy New Year 2017.
